

Hard floor ^[2]	Surface preparation	Renovation	Maintenance cleaning	Polishing
Terrazzo, Marble, Limestone				
Polished concrete				
Granite				
Uniform tiles				
Uneven tiles				
Resilient floor coverings ^[2]	Surface preparation	Renovation	Maintenance cleaning	Polishing
Vinyl, VCT				
Linoleum ^[1]				
Rubber				
Epoxy smooth				

^[1]Coating recommended ^[2] Best practice will be to check for existing floor manufacturer recommendations and perform any trials starting with the least aggressive options.

Colour & Gloss Legend ^[3]	
White, Orange (HT)	
Yellow, Blue (HT)	
Green, Pink (HT)	
Purple	
Grey	
Matt	
Satin	
Gloss	
High gloss ^[4]	
Least aggressive pad (recommended for new floors & buffing)	
White, Yellow, Orange	Surface upgrade
Red	Surface restoration pad
Red "Extreme"	Chemical-free sanding and repair of stains and burns
Red & Black "Hybrid"	Removal of orange peel, scratches, bumps and other surface damages

^[3] Final gloss will depend on many variables like floor type, surface texture, wear, cleaning operation process, etc.

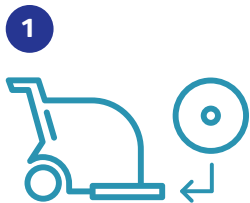

^[4] For coated floors

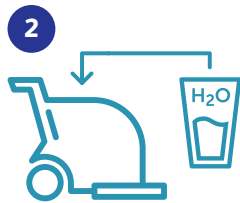

The Twister colour system tells you when it is time to put a new pad in. When the pad is out of colour, a new one must be fitted to the machine. Contact your account manager to create a customised Twister colour programme that suits your needs.

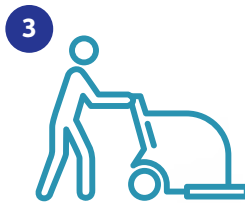

TWISTER Guide

Mount the Twister pad on the cleaning machine.

Pour tap water (no chemicals!) into the machine.

Done. Now you can start cleaning.
