

AERO UP 30/38 E

Designed for reliability

AERO UP 30/38E - the versatile and durable upright vacuum cleaner for a wide range of cleaning tasks. The roller brush technology delivers the highest mechanical cleaning action and allows deep cleaning of carpets and hard floors.

Designed for reliability

The single motor system of TASKI AERO UP 30/38 E provides excellent air flow, while the high-speed brushes mechanically remove dirt within the fibers of the carpet. This system delivers a superior cleaning result and enhances the appearance of the carpet. It even received a "Silver" rating by the Carpet and Rug institute, proving its reliability and high performance. The machine is lightweight and easily maneuverable, which allows a productive and ergonomic cleaning operation.

Versatility

The AERO UP 30/38 E is a powerful, durable and versatile upright vac for a wide range of cleaning, various tools are attached to the machine already. It's durable tools and extension wand allows cleaning in hard to reach areas. It is designed to have a very low profile which makes cleaning under furniture quick and easy for efficient vacuuming.

Improved air quality

The AERO UP 30/38 E comes with a 3-stage filter system: Filter bag, motor filter and HEPA exhaust filter. As changing the filters at the right time is key to maintaining top vacuum performance and improving indoor quality, the 100-Hour HEPA Filtration Kit simplifies the maintenance and keeps the air quality on a high level.

Easy of use

Very easy maintenance - change the filters, brush roll and cord quickly and without any additional tools. The adjustable handle and contoured grip helps the operator to find a comfortable setting. The light weight of the machine also allows easy transport of the vacuum cleaner from one area to the other.

AERO UP 30/38 E

Technical data	AERO UP 30 E	AERO UP 38 E		AERO UP 30 E	AERO UP 38 E
